

Prophecy by Dr Sharon Stone at a meeting in Chelmsford, Essex in 2006

I have only been through it a couple of times.

But I know this sounds strange, so just stay with me. The Spirit of God says "Harlow is going to become very important in these next 2012 Olympics".

Do we have anyone here from Harlow? Anyone else? Can we get hands laid on them quickly.

We don't do this in every county; the Spirit of God speaks somewhat individually not just corporately also.

The Spirit of God says "During the next 2012 Olympics it is going to be a significant time and I am going to put the world's eyes upon your town" says the Lord.

The Spirit of God says "I am giving my church time to prepare" says the Lord, "The net, for they are going to know how to cast the net on the other side and bring forth a catch of different nations and different cultures" says the Lord.

And the Lord says "There is going to be great preparation made and it can't wait until 2011 to begin to proceed" but the Lord says "It is going to begin to proceed now"

And the Lord says "I am going to use your sporting arenas and I am going to bring athletes in early and there will be media cameras all over your town" says the Lord.

And the Spirit of God says "While are others are preparing and keeping themselves ready" the Spirit of God says "Meanwhile you are going to have fish leaping into the boat" says the Lord.

But I also heard the Spirit of the Lord say "I am giving you some prayer strategy" for the Lord says "There is idolatry in sculptures and other gods and it just seemed that there was so many it felt like walking through a museum even seeing it in the spiritual realm.

And the Spirit of God says "I am sending out the SAS teams to go and begin to deal even with these things that others have said are just to beautify and just to decorate and just art. And the Spirit of God says "Surely I will take the altar of the enemy and bring it low that an altar of worship might be built even in that place".

And I think it is necessary because God wants to build an atmosphere for evangelism and an atmosphere that has the ability to even bring the corporate church together with a focus of what is getting ready to happen in Harlow.

God we bless Harlow.
